

Namoi Valley

Water allocation update

Allocations

Lower Namoi general security allocation remains **unchanged at 7.08 per cent of entitlement**. Hot and dry weather persisted across the Namoi Valley in January, with very little rain recorded across upper catchment areas.

All other licence categories in the Lower and Upper Namoi valleys have already received their maximum allocation for the 2017/18 water year.

	High Security	General Security
Upper Namoi Valley	100%	100%
Lower Namoi Valley	100%	7.08%

Dam levels (as at 06 February)

- Keepit Dam is 18 per cent full – falling – holding 83,000 megalitres (ML).
- Split Rock Dam is 18 per cent full – falling – holding 74,000 ML.

Key facts

- Irrigation deliveries from Keepit storage are decreasing, while delivery losses remain high (well above the 30 per cent budget) due to elevated temperatures and generally dry conditions.
- Bulk Water Transfer from Split Rock to Keepit Dam will continue until mid-February 2018.
- If dry conditions persist, deliveries next season may need to be limited to users upstream of Gunidgera Weir. River operators at WaterNSW will advise details if this becomes likely.

Seasonal rainfall outlook

The Bureau of Meteorology is forecasting average rainfall conditions during February to April for the catchment. Daytime and night temperatures are also likely to be average during this period.

Weak LA NIÑA conditions in the tropical Pacific are continuing. However, the Bureau's models suggest that the LA NIÑA will cease by mid-autumn as LA NIÑA events tend to break down around this time of the year, meaning a reduced influence on rainfall.

Further information

The next allocation announcement for the Namoi regulated river water source will be issued on **Wednesday 7 March 2018**.

Information on Available Water Determinations and water sharing plans is available on the Department of Industry – Water website - www.water.nsw.gov.au

Namoi Resource Assessment Data Sheet

Resource Distribution (as at 31 January 2018)	
	Volume (GL)
Available Resource ⁽¹⁾	162.39
less	
Storage Losses ⁽²⁾	27.83
Essential Supplies ⁽³⁾	39.31
General Security Account Balance ⁽⁴⁾	91.06
Upper Namoi/Manilla River accounts ⁽⁴⁾	4.19
Peel Trade Account ⁽⁵⁾	0.00
Delivery Loss Account ⁽⁶⁾	0.00

See notes below.

**Resource Distribution as at at 31 January 2018
Namoi Valley**

Notes:

- (1) Available Resource: includes total active storage (Split Rock & Keepit Dams).
- (2) Storage Losses: evaporation loss based on forecast storage behaviour and maximum historical evaporation rates over 2 years.
- (3) Essential Supplies: water required to be set aside under water sharing plans to provide for Towns, Stock & Domestic, High Security and riverine environments. Includes Gunidgera/Pian stock and domestic replenishments, delivery loss allowance and end-of-system flow requirements. This commitment is offset by minimum forecast inflows into the storages.
- (4) Held environmental water (HEW): as a trial, general security account water administered by environmental water holders is identified in the above pie chart. This reporting of held environmental water is indicative only and, prior to reconciliation of usage and net trade, estimated to be about 10 GL in the Lower Namoi and 0.11 GL in the Upper Namoi. Interested parties should refer to individual Agency websites for more detailed information on held environmental water holdings.
- (5) Peel Trade Account: the Peel water sharing plan, at Clause 86(4), provides for limited allocation assignment (temporary trade) from the Peel to the Namoi valleys. It requires a volume to be set aside in Keepit Dam equal to the AWD times 3,000 up to a maximum of 6,000 ML, to support trade from the Peel valley. The current account balance is zero (0) ML meaning all available trade water has been delivered.
- (6) This account reflects the water needed to deliver general security water (delivery losses). Zero balance means that water must be borrowed to continue the delivery of general security water, in accordance with prior practice. It also means that payback of any borrow will occur before general security allocation increases.

Namoi resource assessment

- Previous Assessment date: 31 December 2017
- Current Assessment date: 31 January 2018

Storage volume	Committed Volume (GL)	Remaining Storage Balance (GL)
Total (Split Rock plus Keepit)		172.07
Dead storage	9.70	162.37
Storage Loss Committed - projected 2 years (brought forward)	38.56	123.81

Essential Supplies	Committed Volume (GL)	Remaining Balance (GL)
Brought forward	67.20	
Used and associated loss since last assessment	-1.86	
Allocation Assignments from High Security to General Security	-0.03	
Transfer to General Security delivery loss account	-0.01	
Current balance	65.31	58.51

Upper Namoi/Manilla Rivers	Committed Volume (GL)	Remaining Balance (GL)
Brought forward	6.58	
Ordered since last assessment	-0.68	
Allocation Assignments from Upper Namoi to Lower Namoi	-1.71	
Current balance	4.19	54.31

General Security (D/S Keepit)	Committed Volume (GL)	Remaining Balance (GL)
Brought forward	151.77	
Orders since assessment period	-62.45	
Allocation Assignments into Lower Namoi (from HS & Upper Namoi & Peel Trade)	1.73	
Current balance	91.06	-36.75

Peel Trade Account	Committed Volume (GL)	Remaining Balance (GL)
Brought forward	0.00	
Trade to general security since last assessment	0.00	
Current balance	0.00	-36.74

Delivery Loss	Committed Volume (GL)	Remaining Balance (GL)
Brought forward	11.94	
Apparent losses since last assessment	-79.70	
Credit from Essential Supplies (for Allocation Assignments to GS)	0.01	
Current balance	0.00	-36.74

Apparent Losses since last assessment	% of loss	GL
Total		80.74
Essential Supply Loss	1%	1.04
General Security Loss	99%	79.70

Resources available for sharing	GL
Total	-36.74

New balances	Limit	Commitments		Balance
		Current	Additional	
		GL	GL	
Storage Loss	27.83	38.56	-10.73	27.83
